LAYING SOLUTIONS

Our 20 mm outdoor porcelain collection provides a highly versatile and innovative solution, offering a multitude of laying options. These include dry installation on grass, gravel, or sand, as well as screed with adhesive or elevated floor installation.

Dry Installation On Grass

Dry Installation On Gravel / Sand

Installation On Screed With Adhesive

Elevated Floor Installation

Adjustable Support

CAUTION

When carrying out an elevated floor installation it is recommended to check the intended use and to follow the installation instructions.

- In the case of external dry installation, the force of the wind, in particular types of applications or geographical locations, can cause the lifting of the tiles.

It is recommended that the designer/client always check the suitability of the installation system selected according to local regulations in force. Failure to follow the above recommendations may result in misuse of the product and cause injury to persons and/or damage to property.

Available Size in 20mm

Our 20 mm outdoor porcelain tile collection is available in three sizes: 60x120cm, 60x90cm, and 60x60cm. The various size options provide flexibility in design, allowing you to create unique patterns and layouts that suit your personal style. Whether you prefer a larger format for a modern and spacious look or a smaller size for a more traditional and versatile design, our 20 mm outdoor porcelain tiles offer a reliable and stylish solution for your outdoor projects.
